Section-option/Spécialité/BAP/Domaine :

CONSIGNES

- Remplir soigneusement, sur CHAQUE feuille officielle, la zone d'identification en MAJUSCULES.
- Indiquer le n° du sujet quand l'épreuve comporte plusieurs sujets au choix.
- Ne pas signer la composition et ne pas y apporter de signe distinctif pouvant indiquer sa provenance.
- Numéroté chaque PAGE (cadre en bas à droite de la page) et placer les feuilles dans le bon sens et dans l'ordre.
- Rédiger avec un stylo à encre noire.
- N'effectuer aucun collage ou découpage de sujets ou de feuille officielle. Ne joindre aucun brouillon.

**CONCOURS INTERNE DE RECRUTEMENT
DES ÉLÈVES INGENIEURS DE L'AGRICULTURE ET DE L'ENVIRONNEMENT
DU MINISTÈRE CHARGÉ DE L'AGRICULTURE**

Session 2023

Épreuve écrite d'admission : Test d'anglais de compréhension écrite.
(Durée : 30 minutes – Coefficient 2)

Questionnaire à choix multiples

L'ensemble du présent sujet comprend 3 feuillets numérotés de la page 1 à 12.

À lire attentivement !

Vérifiez que le document qui vous est remis correspond au concours indiqué sur votre convocation et contient le nombre de pages annoncées : si ce n'est pas le cas, signalez-le aussitôt.

En l'absence d'indications contraires, **EMPLOYEZ EXCLUSIVEMENT DE L'ENCRE NOIRE** et évitez toute présentation pouvant constituer un signe distinctif : l'utilisation du crayon gris ou de couleurs autres que le noir entraînera la non-correction de la copie et l'annulation de votre participation.

Inscrivez sur la bande d'anonymat détachable de chaque feuillet vos nom et prénom en lettres capitales, date de naissance ainsi que l'épreuve, l'examen et la session. Faites-le avant d'entamer la rédaction de chacun de vos feuillets : il ne vous sera plus possible de le faire une fois l'épreuve terminée, et l'absence de ces mentions sur un feuillet entraînera la non-correction de votre copie et l'annulation de votre participation. N'inscrivez rien dans la case réservée au numéro d'inscription.

Ne faites pas apparaître votre nom, ni le nom du centre d'épreuves, ni aucun autre nom de personne ou de lieu, ni signe distinctif, ni signature même fictive en quelque endroit de votre composition : cela entraînerait la non-correction de votre copie et l'annulation de votre participation.

À l'issue de l'épreuve, rendez vos 3 feuillets, avec toutes les bandes d'anonymat renseignées, avant de signer la feuille d'émargement. Tout candidat quittant la salle sans rendre sa copie est signalé absent.

Aucun brouillon, ni collage de documents, ni feuille non réglementaire ne sont acceptés.

Feuillet n°1 : Questions 1 à 20

Part 1 – INCOMPLETE SENTENCES

There is one missing word in each of the following twenty sentences. Four possible answers follow the sentence and only one of them is correct. Choose the best answer and circle the corresponding letter.

1. Customers are more and more aware of the environment and are buying more _____ products.
a- Biological
☒ b- Organic
c- Environmental
d- Ecology

Epreuve écrite d'admission**QCM Anglais****FEUILLET N°3 – Questions 30 à 40****Part 3 – READING COMPREHENSION**

There are three documents, each followed by three or four questions. There are four answer options each time but only one of them is correct. Choose the best answer and circle the corresponding letter.

Part 3 – Text 1

Shortages of some fresh fruit and vegetables such as tomatoes and cucumbers could be the “tip of the iceberg”, the National Farmers’ Union (NFU) has said. Certain products are hard to come by in UK supermarkets due to poor weather reducing the harvest in north Africa, Brexit rules and lower supplies from UK and Dutch producers hit by the jump in energy bills to heat greenhouses.

The NFU’s deputy president, Tom Bradshaw, said a reliance on imports had left the UK particularly exposed to “shock weather events”. He said the UK had now “hit a tipping point” and needed to “take command of the food we produce” amid “volatility around the world” caused by the war in Europe and the climate crisis. “We’ve been warning about this moment for the past year,” Bradshaw told Times Radio on Saturday. “The tragic events in Ukraine have driven inflation, particularly energy inflation, to levels that we haven’t seen before. [...] We’d always have some imports – but we’ve been completely reliant on imports [now].

Adapted from The Guardian, Feb. 2023.

30. What is happening in the UK?

- a. Climate disasters
- b. Brexit
- ☒ c. Products are missing from the stores
- d. The Farmers’ Union is blocking products

31. What is the National Farmers’ Union recommending?

- a. More reliance on other countries
- b. Ordering more food from Europe
- c. Bigger problems to come
- ☒ d. A more self-sufficient approach

32. The UK is vulnerable because:

- ☒ a. It depends on international imports too much
- b. Poor weather affects national harvest
- c. Inflation makes fruit and vegetables too expensive
- d. It shouldn’t consume so many tomatoes and cucumbers

33. The current war is causing:

- ☒ a. Cost increases
- b. A tipping point
- c. More imports
- d. A reduced harvest

Part 3 – Text 2

Why aren't prices falling at the grocery store? When food producers started raising prices a few years ago, they blamed their own costs, including higher ingredient prices. But ingredient prices have actually been on a downswing for months, and individuals are still paying more for food. In part, it's because food producers have other expenses that remain pricey, like labor and transportation, compared to a few years ago. [...]

Many food companies are forecasting that they might slow down or pause price increases — but not lower them. "There have been supply chain pressures, and there have been commodity cost increases. But [companies] have, I think, taken price increases that exceed that," said Mark Lang, an associate professor of marketing at the University of Tampa who specializes in food marketing. "They are, to me, absolutely profit taking." Companies are maintaining elevated prices, or continuing to increase them, at a time when many Americans are already struggling to pay for food, especially as pandemic-era benefits expire. "This kind of activity, in a big picture way, reduces the standard of living for the country," said Lang.

Adapted from CNN, March 2023

34. What is the current danger for the population?

- ☒ a. They risk not being able to afford food
- b. Ingredients are missing
- c. The pandemic
- d. Supply chain issues

35. What is unexpected in this situation?

- a. Inflation
- ☒ b. Food prices do not reflect ingredient price variations
- c. Customers have less money
- d. Labor and transportation costs have increased

36. What are companies being accused of?

- a. Maintaining higher production costs
- b. Cutting profits
- ☒ c. Making money off the situation
- d. Exploiting workers

37. Food companies have announced:

- a. Elevated prices
- b. Prices will fall
- ☒ c. Price increases will come to a halt
- d. More price increases

Part 3 – Text 3

Administrator (Farming in Protected Landscapes)

Helmsley, York

Farming in Protected Landscapes programme was launched in summer 2021. The programme is designed to help farmers and land managers in National Parks to prepare for the transition to Environmental Land Management Schemes. We're looking for a new Farming in Protected Landscapes Administrator to support this key programme in the North York Moors Park Authority.

- Salary of £21,189 - £21,968
- Local government pension scheme
- 25 days annual leave
- Flexible working

This is the ideal role for a proven administrator ideally with a track record of supporting conservation initiatives.

You will provide administrative support, assisting with financial management, monitoring and reporting, inspecting and making grant offers, agreements and payments, and creating reports. This varied and engaging role will also see you providing technical support in terms of monitoring budgets, setting up events, as well as supporting project evaluation.

38. This job offer is targeting:

- a. Young graduates
- ☒ b. Experienced professionals
- c. First-time administrators
- d. All types of candidates

39. The mission requires:

- a. Having a technical degree
- b. Farming experience
- c. A strict schedule
- ☒ d. Multiple skills

40. *Farming in Protected Landscapes* aims at:

- a. Ending farming in protected areas
- ☒ b. Helping farmers turn to more sustainable practices
- c. Protecting larger areas
- d. Turning national parks into agricultural land
